Mass Spectrometry 2012 Conference & Workshops

Mass Spectrometry 2012 is a world-class international conference and exhibition, covering fundamentals, best practice and applications in mass spectrometry and mass spectrometry coupled techniques. Taking place 7-8 November, 2012 at the state-of-the-art Biopolis, Singapore, this industry-leading event, will fuse a programme of world-class international and regional speakers, poster sessions, and an exhibition of instrumentation and equipment for analytical scientists working across pharmaceutical, food, environmental and clinical markets.

Key presentations at *Mass Spectrometry 2012* include:

Latest Achievements in the Field of FT ICR Mass Spectrometry
Evgeny N. Nikolaev (Russian Academy of Medical Sciences, Moscow)

Mass Spectrometry Imaging and In situ Ambient Mass Spectrometry in Clinical, Biological and Environmental Research
Bernhard Spengler (Justus-Liebig Universität Gießen, Germany)

Improving Your Interpretation of Mass Spectra
David Sparkman (University of the Pacific, California, USA)

Method Optimization Strategies in LC-MS
Frederick Klink (Mass.Spec.Training.com)

Theory and Practice of Orbitrap Mass Spectrometry
Alexander Makarov (Thermo Fisher, Bremen, Germany)

Measurement of Trace Components in Biological Fluids using GC-MS: Is it the Way to Go?
Mustafa Ali Mohd (University of Malaya, Kuala Lumpur)

Validation and Qualification of Methods and Analytical System in a Regulatory Laboratory
Shib Mookherjee (Valqual International, USA)

Mass Spectrometry in Proteomic Biomarkers Discovery
Roger Wilmer Beuerman (SERI, Singapore)

Ambient Mass Spectrometry Enables Extractionless Analyses: Holy Grail, Useful Tool or Hoax?
Teris van Beek (Wageningen University, The Netherlands)

Proteomics Study of Alzheimer's Disease Mechanism: What do Blood Biomarkers Tell Us?
Roman A. Zubarev (Karolinska Institutet, Stockholm)

Applications of IMS TOF in Drug Discovery
Kelly Dong (GlaxoSmithKline R&D, China)

Targeted Mass Spectrometry for the Study of Biological Pathways
Manfred Raida (A-Star Research, Singapore)

Mass Spectrometry in Modern Lipidomics Research
Markus Wenk (NUS, Singapore)

Recent Advances in MALDI Mass Spectrometry with UV and IR Lasers
Klaus Dreisewerd (Univ. of Muenster, Germany)

Top-Down Mass Spectrometry Methods for Defining Proteins and Protein Interactions Important in Biology and Medicine
Joseph Loo (UCLA Molecular Biology Institute)

Workshops

Running prior to the conference is a series masterclasses, including:

Validation and Qualification of Methods and Analytical System in a Regulatory Laboratory
5-6 November, 2012
Instructor: Shib Mookherjee
This workshop is designed to understand the requirements and implementation of various levels of Qualification & Validation activities and procedures. It applies to HPLC/GC/LC-MS, GC-MS, UV-VIS and many other common analytical techniques in the industrial/ pharmaceutical laboratories.
CLICK FOR MORE INFO>>

Mass Spectral Interpretation
5-6 November, 2012
Instructor: David Sparkman
This is designed to develop the fundamental skills necessary to understand fragmentation of ions formed by electron ionization (EI) in GC/MS or by one of the soft ionization techniques employed in LC/MS.
